

Better Moment #29

FINALLY GETTING TO SAY "I'M BETTER".

Honsberger Physio+ is all about helping you build a better workplace! Our range of Active Health Management programs are designed to recognize, evaluate, and activate your workplace so you can see immediate results in employee injury prevention and recovery. Promote a healthy work culture when -- and where -- your employees need it most!

**BUILDING
A BETTER
YOU**

BUILDING A BETTER WORKPLACE

Our team of therapists prevent injury through individual comprehensive assessments, evaluation and treatments to get your people back on the job — fast. This means your employee is away from their job for only the time it takes to treat them — typically 30 minutes per session, making it easy and convenient for your staff to get the care they need. We offer two on-site clinic options which provide one-to-one treatment for employees at your facility, office or job-site location. By using a centralized injury tracking system, you will also gain direct control over the health of your employees, as well as receive monthly no-fee status reports to stay in-the-loop about individual claims.

ACTIVE CARE PLAN

Our Active Care Plan works with the organization to provide a private clinic space on-location, as well as start-up equipment necessary for treatment. Honsberger Physio+ provides an on-site certified Athletic Therapist who can treat between 16-32 patients a week using pre-purchased hours. The Company owns all equipment indefinitely and can use its clinic hours for a variety of on-site Active Health Management Programs.

CORPORATE CARE PLAN

Our Corporate Care Plan works with the organization to provide a private clinic space on-location, as well as start-up equipment costs necessary for treatment. Honsberger Physio+ provides an on-site certified Physio and/or Massage Therapist who can treat between 16-32 patients a week. Patients use their personal health plan as part of their existing corporate benefits package. The Company owns all equipment indefinitely and receives reduced rates for a variety of on-site Active Health Management Programs.

WHAT OUR CLIENTS ARE SAYING

“Honsberger Physio+ has contributed towards our success in achieving over \$300,000 in WSIB cost relief measures through work in identifying pre-existing factors over a 3-year period.” - Toronto Manufacturing Client

“We decreased LTIs by 33% from FY09 to FY10, and saw a significant decrease in lost time and modified duties days by 26% this year, and 36% the prior year.” - Etobicoke Manufacturing Client

“62% reduction of lost time injury and/or modified duties through early treatment intervention.”
- Etobicoke Manufacturing Client
